Web developer that's seeking to secure a position with a leading company where I can apply my creative abilities and technical skills to build a long term career relationship. Passionate about building web apps with an appealing frontend paired with a well structured backend from mockup to release.

TECHNICAL SKILLS

HTML, CSS/SCSS, Bootstrap, Javascript, jQuery, React, Redux, Node.js, Express, RESTful API, MySQL, MongoDB, Firebase, command line, GIT, Github, & Heroku.

Adobe certified in visual communication using Photoshop, and in print and digital media design and publication using InDesign.

PROJECTS

Daily Diary [Website](#) [Github](#)

Take note of how your day went and reference it from anywhere.

Built using React, Redux, Node.js, Express, MongoDB, Mongoose, Redis, and Passport.

Game Guide [Website](#) [Github](#)

Quickly search for video game information and browse the latest news.

Built using React, Node.js, Express, and data provided by IGN and IGDB API's.

Personal Planner [Website](#) [Github](#)

Plan out your personal tasks in a clean and organized way.

Built using React, Redux, Node.js, Express, Firebase, and SCSS.
